

Questions for the Rehab Directors Forum on Amenities

September 2014

Hello Everyone,

Would you be willing to fill out the following grid regarding what “amenities” you have as far as space and services you provide to your PT, OT and SLP patients?

Answers below

Facility Name: A		
<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>

Facility Name: B		
<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>
Outdoor Playground	Yes	Large outdoor play space that is “owned” by child life and includes the entire hospital (not specific to rehab). In addition we have a small (approx 150 sq ft) outdoor area on our unit with seating where pts and families can go outside but it is fairly dark and not many amenities (table, chairs)
Pool	Yes	94 degree large therapy pool used by entire hospital, We have specific times reserved for therapy
ADL Bathroom	yes	Both on the rehab unit and in the outpatient therapy department
Kitchen	yes	Both on the rehab unit and in the outpatient therapy department. WE have a stove with oven specific to patient and family use that is locked (they have to check out the key)
Lokomat	no	
Private/Quiet/Small Treatment Room	yes	Several spaces (we have 3 private treatment rooms on the unit)
Classroom	yes	Large school room that is located off the unit. Includes spaces for individual teaching and group teaching

Spider Cage	no	
Common Eating Area for Rehab Patients	yes	Although they don't use it
FES Bike	yes	
Overhead Lift Systems	yes	In every room, bathroom and treatment rooms on the inpatient unit

C

We are speech & audiology only; I have answered accordingly.

Our OT/PT services are contracted through our sister adult hospital; I am hopeful that they respond as well.

<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>
Outdoor Playground	1	None current – planning 1 small one
Pool	2	Currently 1 (multiple levels – parallel bars in water) lift system and steps – will add a 2 nd so will have 1 warm & 1 cool
ADL Bathroom	2	Currently, have 1 ADL apartment with kitchen, living room, bathroom and bedroom – shared by all IP rehab patients. After construction will add a 2 nd . One will be shared by peds patients, adult SCI patients and medically complex rehab patients; the other will be shared by adult stroke, amputee, BI & cancer rehab patients. (OP also had an ADL apt)
Kitchen	2	Same as above (OP also has)
Lokomat	1	Shared by all rehab programs – peds and adult
Private/Quiet/Small Treatment Room	3	Currently, peds does not have, but after construction/renovation we will have 2 IP Peds therapy gyms (for age) and 2 private treatment rooms (one with mat table and other other with table top). Also a 3 rd private treatment room designated for SLP.
Classroom	Shared space	Have gone away from classroom to either seeing kids in private rooms or in private treatment space or in a multi-purpose space – such as a conference room.
Spider Cage	0	
Common Eating Area for Rehab Patients	2-3 for peds	Each rehab program has day spaces designated for their patient population – for peds there will be a day space for younger children and a separate one for older children. Both can serve multi-purpose including eating. There will also be a large family lounge where children and families can eat together. There will also be café type spaces on other floors where kids can eat if accompanied by staff or family member.
FES Bike	2	2 in hospital – none in designated peds rehab as we

		share these with other programs.
Overhead Lift Systems	numerous	Overhead lift systems in patient rooms; ceiling track in hallways planned for all units

<u>Facility Name: I</u>		
<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>
Outdoor Playground	1	This is in our "backyard" of the hospital and open to use for all patients and families
Pool	1	Therapeutic pool used by OT/PT and starting to be used by SLP; has a lift system or stairs entry
ADL Bathroom	A few	1 bathroom in the rehab gym are with toilet/grab bar and roll-in shower; other bathroom with tub/shower used for transfer practice
Kitchen	1	Included in our adapted apartment
Lokomat	1	
Private/Quiet/Small Treatment Room	~3	1 is a "fine motor" room, 1 is more of a sensory room, and a bigger room is used for splinting and table-top activities
Classroom	Not formal	There was a space used for this in the past, but not used as such now
Spider Cage	0	
Common Eating Area for Rehab Patients	yes	Patients eat out in the mall for lunch and dinner

FES Bike	2	We have UE/LE
Overhead Lift Systems	yes	Had this installed this year (Handicare)
Other: Adapted apartment	1	Can be used for patients and families to stay overnight the week prior to discharge as a transition to being discharged home
Other: Game Cycle	1	
Other: Alter G	1	
Other: Motomed	2	

Facility Name: J		
<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>
Outdoor Playground	1	More of a play deck, but it is an outside area that can be used by IPs
Pool	1 (OP)	We have a pool available for OPs, but not IP
ADL Bathroom	1	
Kitchen	1	
Lokomat	1	
Private/Quiet/Small Treatment Room	2	In our main IP area, there are several rooms that could be used for private treatment sessions
Classroom	1	IP-do classroom and bedside instruction
Spider Cage	1 (OP)	Could be accessed by IP, if appropriate
Common Eating Area for Rehab Patients	1

<u>Amenities</u>	<u>Quantity/Size (if known and applicable)</u>	<u>Comments</u>
Outdoor Playground	1	It is brand new, very nice. Child Life was instrumental in getting it installed.
Pool	0	
ADL Bathroom	1	OT has a bathroom but even though it is set up for training/education the door will not close when there is a wheelchair in there.
Kitchen	1	There is a kitchen in OT but only for patient training/ education not to be used by families.
Lokomat	0	
Private/Quiet/Small Treatment Room	1	We have this in OT and the ST therapists all have private treatment rooms. PT does not have one.
Classroom	0	We have a conference room that is used by many groups but is where we hold our family conferences. It has to be reserved.
Spider Cage	0	
Common Eating Area for	0	

Rehab Patients		
FES Bike	0	
Overhead Lift Systems	1	Biodex
