

## BURN CARE – PEDIATRIC LISTSERV SURVEY SUMMARY

- A. Just to clarify – we do not have a burn unit. We provide multidisciplinary burn care in the ED, PICU, med-surg inpatient floors and outpatient setting. We have designated treatment rooms, but not a unit.

do you provide burn patient care 7 days per week? **yes**

If so, can you tell me what that looks like? **Dedicated burn therapists Mon-Friday; inpatient OT/PT on weekends and holidays if needed**

Do you have PT and OT both working with these patients? **yes**

Do you complete evaluations and treatments 7 days per week? **Dedicated burn therapists evaluate and treat mon-fri with a focus on burn wounds and traditional burn therapy; patients are also evaluated/treated by inpatient OT/PT to meet functional goals, this is available on weekends if needed**

Do both disciplines complete separate evaluations or do they complete a joint evaluation? **Separate**

- B. We provide 7 day coverage for burns for evaluations and treatments. PT and OT usually complete the evaluations separately. Treatment frequency is based on the plan of care.

- C. For those of you who have regional burn centers, do you provide burn patient care 7 days per week? **YES. BY NURSING AND/OR THERAPY AS NEEDED**

If so, can you tell me what that looks like? **THERAPY M-S. DISCUSSIONS REGARDING SUNDAYS IF NEEDED PER PATIENT'S SEVERITY**

Do you have PT and OT both working with these patients? **YES. AS CONSULTED**

Do you complete evaluations and treatments 7 days per week? **EVALUATIONS M-F, UNLESS PRIORITY. THEN WE TRY TO SCHEDULE EVALUATION ON WEEKENDS, IF NECESSARY.**

Do both disciplines complete separate evaluations or do they complete a joint evaluation? **SEPARATE EVALS**

- D. At "D", we are not a regional burn center. We provide care to burn patients and see them daily while here, but we transfer complex and high percentage burns to a burn center.
