Clinical Gait Analysis:
A Focus on Interpretation

Level 1 and Level 2 Courses

Sponsored by:
Gillette Children's Specialty Healthcare

In Collaboration With:
Connecticut Children's Medical Center and University Hospital Pellenberg

This three-day course features level 1 and level 2 tracks. The level 1 track teaches introductory skills for analyzing gait and planning associated treatments. The level 2 track is tailored to clinicians who have experience in gait analysis. In the level 2 track, presenters discuss in depth the complexities of gait interpretation in children who have disabilities.
