Pediatric Cardiac Rehabilitation Programs - August 2016

Column1	Column3	Column4	Column5	Column6
Institution	Do you have a dedicated cardiac rehab unit?	Which disciplines are involved?	Org structure?	Any additional information?
A.	No, but we do have an acute cardiac unit. If needing intensive rehab, come to rehab unit with oversight by cardiac team.	Therapists--not specified		
B.	No rehab program. We see cardiac patients postoperatively.	OT, PT, SLP and Aud		
C.	No-treatment on the cardiac unit or rehab gym, depending on patient acuity. We do have outpatient cardiac rehab in our outpatient rehab locations.	PT		We are having a Cardiac Rehab Conference in late September.

D.	No-we are just beginning to increase cardiac surgeries. We currently follow patients under 3 through out neonatal f/u program and over three through developmental peds and psychology			
E.	No	PT and OT consulted directly by unit		
F.	Nothing formal. Outpatients seen in gym for "rehab" during the 6-weeks post-transplant. Inpatients seen on unit or rehab gym depending on acuity and length of stay.	PT and OT staff who have completed the competencies		Let me know if anyone there, particularly PTs, would like to help with projects like this. The hospital-based special interest group of the pediatrics group for APTA is trying to do some work in this area.
G.	No			
H.	Yes--comprehensive team (see link)	MD, RN, SLP, OT, PT, Respiratory		
I.	Yes-peds rehab unit. Adults--med complex team			
J.	No			

K.	for inpatient but not outpatient peds clinics
