

ORG A	<ul style="list-style-type: none"> <li>• Looking back over your past year of clinical practice, what are you most proud of (acquiring new skills/treatment technique, a patient success story, etc).</li> <li>• "Can you share a scenario when you encountered a difference in opinion regarding a patient's care or treatment plan with a professional from another discipline? How did you navigate this situation while ensuring the best outcome for the patient?"</li> </ul>
ORG B	<ol style="list-style-type: none"> <li>1. What research article have you read most recently?</li> <li>2. What feedback have you been given regarding your clinical writing?</li> <li>3. What mode of feedback do you feel works best for you?</li> </ol>
ORG C	<ol style="list-style-type: none"> <li>1. What are the best tricks you have found to work when testing a difficult-to-test child?</li> <li>2. What is your favorite Conditioned Play toy and why?</li> <li>3. How do you approach testing children with ASD?</li> <li>4. What is your order of testing a child for VRA?</li> <li>5. Provide some examples of audiograms and ask about additional testing and patient management; incomplete unilateral audiogram, canal dehiscence audiogram, etc.</li> </ol>
ORG D	<ul style="list-style-type: none"> <li>• Tell us about a mistake you made and how you handled it. What did you learn from it?</li> <li>• What annoys you?</li> <li>• If we were to ask your current/previous boss, what would he/she say are your strengths and areas to improve?</li> </ul>
ORG E	<p>We include case study type clinical questions, which I feel helps give a better idea of their actual clinical knowledge and critical thinking skills that you can't capture from a resume. We have a case study type question for each of our main areas of diagnoses- ie ortho, cardiac, PICU and NICU. There will be a scenario and then questions such as what would you want to know prior to your assessment, what would you assess in your eval, what goals would you set, what are some treatment ideas, etc.</p>
ORG F	<ul style="list-style-type: none"> <li>• What are you looking forward to about this role? Is there anything you are particularly anxious to learn?</li> <li>• What are the biggest challenges you have faced when working with pediatric patients?</li> <li>• Is there anything specific you do on a regular basis or have done in your practice that you feel goes above and beyond for your patients and families?</li> <li>• How do you handle situations with difficult patients or families? Even if a supervisor was brought in, what other problem-solving were you able to do?</li> </ul>
